**Re: Application of New ICO Satellite Services G.P. For Authority to Operate Ancillary Terrestrial Component Facilities
File Nos. SES-LIC-20071203-01646, SES-AMD-20080118-00075, and
SES-AMD-20080219-00172**

Dear Ms. Dortch:

On April 4, 2008, TerreStar Networks Inc. ("TerreStar") submitted comments concerning the above-referenced application filed by New ICO Satellite Services G.P. ("ICO") for authority to operate ancillary terrestrial component ("ATC") base stations and dual mode mobile satellite service ("MSS")/ ATC mobile terminals using 2 GHz MSS frequencies it is authorized to use pursuant to a letter of intent authorization. ICO's application included requests for waiver of various ATC technical rules.

In its comments, TerreStar supported ICO's application and waiver requests, with the exception of a small number of waiver requests that TerreStar stated it was evaluating for interference potential and clarifying certain inter-system issues with ICO.
