Re: Amendment to application SES-MOD-20100915-01161, E000361

Pursuant to Section 25.116 of the Commission's Rules, Skyport Global Communications, Inc. respectfully requests an amendment to modification file SES-MOD-20100915-01161 to add frequency coordination information.

The underlying modification requests the addition of three new antennas:

1. Andrew 3.7m Ku
2. Harris 6.1m Ku
3. Vertex 2.4m Ku

Pursuant to 25.116(b), this amendment should be considered a minor amendment since the proposed antennas are intended to operate in the conventional Ku-band (11700-2200 MHz space-to-earth, 14000-14500 earth-to-space). On this band, frequency coordination is not required since Fixed Satellite Service operates on the conventional Ku band on a primary basis.

Sincerely,

/s/ Raul Magallanes
