Re: IBFS File Nos. SES-LIC-20120426-00397; SES-AMD-20120823-00781

Dear Ms. Dortch:

On Monday, May 5, 2014, Jonas Eneberg, Vice President, Inmarsat, and Hendri Lucky, Principal Spectrum Management Engineer, Inmarsat, met with Jose Albuquerque.

In this meeting, the Inmarsat representatives reiterated the importance of approval of Inmarsat's pending Global Xpress applications, including for the operation of the Lino Lakes, MN gateway. This was a brief discussion and did not include any information not already in the record. This filing is made out of abundance of caution and for the purpose of full disclosure.

Please contact the undersigned with any questions.

Respectfully submitted,

/s/

Christopher J. Murphy
