**Re: Panasonic Avionics Corporation – Section 1.65 Submission
Update Information in Amendment of ESAA Blanket License Modification
Application, File No. SES-AMD-20180225-00161 (Call Sign E100089)**

Dear Ms. Dortch:

Pursuant to Section 1.65 of the Commission's rules, 47 C.F.R. § 1.65, Panasonic Avionics Corporation ("Panasonic") hereby updates certain information in connection with the above-referenced amendment of its application to modify its earth stations aboard aircraft ("ESAA") blanket license.

Specifically, for the PPA and SPA ESAA terminals, Panasonic provides the following reduced maximum EIRP levels for the 32 kHz carrier during operations with the IS-33e satellite:

Terminal	Emission Designator (E47)	Max. EIRP Per Carrier (E48)	Max. EIRP Density Per Carrier (E49)
PPA	32K0G7D	<u>35.96 dBW</u>	27.14 dBW/4kHz
SPA	32K0G7D	<u>34.21 dBW</u>	25.39 dBW/4kHz

No other information in support of this amendment, and underlying modification application, has changed. Please do not hesitate to contact me with any questions regarding this matter.

Respectfully submitted,

A handwritten signature in black ink that reads "Carlos M. Nalda". The signature is written in a cursive, flowing style.
