RE: Application SES-REG-20180108-00014 and Amendment SES-AMD-20180306-00200

To whom it may concern:

It appears that during the input of our information of the Frequency Coordination we mistyped on line E55. Our entry for the Satellite Arc was 142° West Longitude and it should have been 143°.

Comsearch coordinated and provided a report referencing a satellite arc of:

Satellite Arc 60° W to 143° West Longitude

Azimuth Range 126.5° to 230.1°

Corresponding Elevation Angles 23.6° / 25.7°

We ask that you please recalculate the data using the Satellite Arc of 143°.

Sincerely,

A handwritten signature in blue ink that reads "Crystal McCoy". The signature is written in a cursive, flowing style.
