Dear Ms. Dortch:

On May 11, 2020, Gregory Romano, Catherine Hilke, and Daudeline Meme of Verizon, and Scott Angstreich of Kellogg, Hansen, Todd, Figel & Frederick, P.L.L.C. (for Verizon) met via telephone with Aaron Goldberger of Chairman Pai's office. During the meeting, we discussed why the Bureau should deny the above-captioned applications and why the Commission should not grant the waivers that would be necessary to grant those applications, as doing so would prevent Verizon from using 28 GHz spectrum to provide 5G services in these areas. During the meeting, we discussed the points contained in Verizon's February 21, March 16, April 21, and April 28, 2020 filings in these dockets.

Sincerely,

/s/

Gregory M. Romano
