Hi Jae,

Here are your answers but I can't figure out how to update the license since I have already submitted it. I was told to file an amendment in IFBS, but I don't see an option for that other than filing an entire new license. Otherwise, here are all the changes you asked for.

1. Please verify Item 20 Nature of Service. You may consider to check a: Fixed Satellite instead of b: Mobile Satellite since O3b is a FSS NGSO satellite. - [We are using an auto-deploy antenna on a mobile trailer for this service so I believe this should be Mobile Satellite.](#)
2. Since this is “Ka-band VSAT network” in item 25(g), please check “yes” instead of “no” in item E17 and provide remote information in items E61: Call Sign and E66: Phone Number. - [This can be controlled remotely, but it is done over the Internet and not a control station.](#)
[Verizon Network Operations](#)
[7000 Weston Parkway](#)
[Cary, NC 27513](#)
[919-377-3980](#)
Please consider changing from Ka-band VSAT network to Ka-band blanket license in Item 25(g) and Item 43: Description. - [I agree with this change.](#)
3. Please check “Yes” in item E16 instead of E15 - [I agree with this change.](#)

Hi Gary,

We need to verify with you and need correction for the following items in your application.

1. Please verify Item 20 Nature of Service. You may consider to check a: Fixed Satellite instead of b: Mobile Satellite since O3b is a FSS NGSO satellite.
2. Since this is “Ka-band VSAT network” in item 25(g), please check “yes” instead of “no” in item E17 and provide remote information in items E61: Call Sign and E66: Phone Number. Please consider changing from Ka-band VSAT network to Ka-band blanket license in Item 25(g) and Item 43: Description.
3. Please check “Yes” in item E16 instead of E15.

Thanks.

Jae Lim
