RE: Public Interest Comment to accompany
FCC APPLICATION FOR ASSIGNMENT OF LICENSE for Satellite Earth Station
SES-ASG-20090720-00886, E8799

PUBLIC INTEREST COMMENT

If this license assignment is granted, this company will make use of it to continue in its business of broadcast communications and public news dissemination. Currently, this company partners with the likes of the various national news networks and associated agencies and has done so as an existing FCC license holder for a temporary fixed satellite earth station.
