

**Cablevision of Monmouth LLC
Notification of Assignment of Authorization
FCC Form 312
Exhibit 1**

Description of Transaction and Public Interest Statement

Cablevision of Monmouth LLC (“CML”) hereby submits the attached application notifying the FCC of the *pro forma* assignment, which has already occurred, of the referenced authorization (the “License”) from Cablevision of Monmouth, Inc. (“CMI”).

CML, a wholly owned indirect subsidiary of Cablevision Systems Corporation (“Cablevision”),^{1/} uses the License in support of its provision of cable television services. On June 23, 2009, for tax reasons, Cablevision converted CMI from a corporation to a limited liability company. That conversion has, therefore, already occurred. While the ownership of CML remained the same, such a change in corporate form is treated as a *pro forma* assignment under the Commission’s rules.^{2/} As a result of a clerical oversight, however, no application for approval of the assignment was filed with the Commission. CML now wishes to correct this oversight.

^{1/} Cablevision is ultimately owned and controlled by the Dolan family.

^{2/} The FCC generally relies on Part 63 of its rules to determine how applications for, and notifications of, transfers and assignments should be treated. *See Skyport Global Communications, Inc., Apparent Liability for Forfeiture*, 24 FCC Rcd 3714 (2009). Pursuant to section 63.24(d), *pro forma* assignments include “[a]ssignment from a corporation to a corporation owned or controlled by the assignor stockholders without substantial change in their interests.” 47 C.F.R. § 62.24(d) (note 2).
