

FCC Form 312
Exhibit F
Response to Question A21

By this application, Broadcast Facilities, Inc., a Delaware corporation (“BFI”), seeks authority to assign the license for E020024 from BFI to its wholly-owned subsidiary, BFI Licenses, LLC, a Delaware limited liability company. The proposed assignment is *pro forma* in nature, as ultimate control of the license would not change.

Grant of this application would allow BFI to operate its business more efficiently, and would facilitate BFI’s ability to secure lender financing to enable it to continue to implement its successful business strategy. Accordingly, such grant would serve the public interest, convenience, and necessity.
