### **Exhibit F: Response to FCC Form 312, Question A21**

This application is being filed to notify the Commission of the *pro forma* assignment of receive-only earth station registration, Call Sign E050135, to Verizon North LLC. To effectuate Verizon’s business goals, the company restructured its interest in certain assets originally held by Verizon North Inc. and retained by Verizon following its transaction with Frontier.<sup>1</sup> Those assets and related licenses, authorizations, and registrations are now assigned to Verizon North LLC.<sup>2</sup> Because Verizon has retained ultimate ownership and control of the registration both before and after this internal reorganization, the transaction is deemed *pro forma* in nature. The Commission has previously stated that, in situations where no substantial change of control will occur, “grant of the application is deemed presumptively in the public interest.”<sup>3</sup>
