

EchoStar Broadcasting Corporation
Exhibit F

RESPONSE TO QUESTION 42A AND 42B
FOREIGN-LICENSED SATELLITES

This application proposes to transfer control over earth station licenses that authorize communications with the following non-U.S.-licensed satellites:

ANIK E1	Canada
ANIK E2	Canada
ANIK F1	Canada
ANIK F2	Canada
ANIK F3	Canada
Ciel 2	Canada
Nimiq 5	Canada
EchoStar 4	Mexico
EchoStar 8	Mexico
MEXICAN	Mexico
Solaridad F-1	Mexico
Solaridad F-2	Mexico
Nahuel C	Argentina
N.V 803	Netherlands
N.V. 806	Netherlands
N.V. 5	Netherlands
N.V. K	Netherlands

All foreign satellites with which U.S. "ALSAT" earth stations may communicate.

These non-U.S.-licensed satellites comply with the Commission's Rules for communicating with U.S. earth stations, as has already been determined as part of the grant of the earth station licenses to be transferred. The proposed *pro forma* assignments will not affect in any way the eligibility of these satellites to communicate with the licensed earth stations.
