**Re: KTVL Licensee, LLC
Notice of Consummation
E920442 - FCC File No. SES-ASG-20111109-01443**

Dear Ms. Dortch:

On behalf of KTVL Licensee, LLC (“Licensee”), this letter serves as notice that the above referenced assignment of earth station license transaction was consummated on April 1, 2012. The assignment transaction included numerous applications filed with the Media, Wireless and International Bureaus. The International Bureau consent to the assignment applications occurred on January 19, 2012. However, the Media and Wireless Bureau consents were not issued until March 13, 2012 and March 16, 2012, respectively. Consequently, the transaction was consummated more than thirty days after the International Bureau’s consent. As a result, the Licensee was unable to electronically submit the consummation notice for the above referenced application through IBFS. Pursuant to a conversation with the FCC staff, the consummation notice is being filed via the IBFS Non-docketed Pleading filing system.

Please direct any communications regarding this matter to the undersigned.

Respectfully submitted,

_____/s/_____
Christine A. Reilly, Esq.
