

Notification of *Pro Forma* Assignment of Receive-Only Earth Station Registrations

This is to notify the FCC International Bureau of the assignment of the receive-only earth station registrations listed in this notification filing.

Liberty Cablevision of Puerto Rico Ltd. ("LCPR") previously held the receive-only earth stations listed in this notification filing. LCPR previously was an indirect, wholly-owned subsidiary of Liberty Global, Inc. ("LGI"), a publicly-traded company. LGI Broadband Operations, Inc. ("LGIB"), a Delaware Corporation, previously owned 100 percent of the outstanding shares of LCPR. As part of an internal corporate restructuring, Liberty Cablevision of Puerto Rico, LLC ("LLC") was organized as a Delaware limited liability company. LCPR was merged with and into LLC, with LLC as the surviving entity. As a result of the transaction, LLC was vested with all of the assets and liabilities of LCPR, and LGIB, the former immediate parent company of LCPR, now holds 100 percent of the limited liability company interests in LLC following the internal restructuring.

The internal restructuring was completed effective December 31, 2011. Thus, the receive-only earth station registrations listed in this filing are now held by LLC. An FCC Form 603 *pro forma* assignment application for this internal restructuring was consented to by the Wireless Telecommunications Bureau on December 28, 2011. See Application File No. 0004985938.
