Dear Ms. Dortch:

By actions of April 30, 2012, the Commission granted the above-referenced Applications 1-5 for consent to the pro forma assignments of Fixed Earth Stations licensed to certain indirect subsidiaries of Time Warner Cable Inc. ("TWC"). On July 24, 2012, the Commission granted the directly related pro forma Application No. 6. In all cases, the assignees are newly-formed indirect subsidiaries of TWC. The International Bureau has granted TWC's requests for extensions of time to consummate the assignments authorized in Applications 1-6, up to and including October 1, 2012.

On behalf of TWC and the parties to the applications, we hereby notify the Commission that all of the license assignments were consummated on September 30, 2012.

Should there be any questions concerning this notice, please communicate with the undersigned.

Very truly yours,

John R. Wilner
Counsel for Time Warner Cable Inc.
