Re: Notification of Closing On Assignment of License  
Temporary-Fixed Transmit-Only Satellite Earth Station E000193  
FCC File No. SES-ASG-20120193-00817

Dear FCC:

Spot Media Transfer, Inc. ("Spot Media"), by its counsel, hereby notifies the Commission that the assignment of the license for temporary-fixed transmit-only satellite earth station E040206 from Community Television of Missouri License, LLC to Spot Media authorized under File No. SES-ASG-20120193-00817, was consummated as of November 8, 2012. As this notification is being filed more than 30 days after the closing, Spot Media requests a waiver of Section 25.119(f) of the Commission's rules, 47 C.F.R. § 25.119(f); the delay in notification was due to miscommunication among the parties and counsel and the recent holidays, and since closing and notification occurred within the permitted 60 day period after grant of the assignment application, the public interest would not be disserved by grant of the waiver and the delayed notification in this case.

Any questions concerning this filing may be directed to the undersigned.

Very truly yours,

Jeffrey L. Timmons
