**EXHIBIT F**

Through this Application, Emerging Markets Communications, LLC (“EMC”) and RWB Holding, Inc. (“RWB;” with EMC, the “Applicants”) seek Commission consent to assign EMC’s receive-only earth station license, E990540, to RWB. RWB currently holds 79 percent of the ownership interest and 100 percent of the voting interest in EMC. As such, RWB currently has *de facto* and *de jure* control of EMC and its receive-only earth station license. Since there will be no change in the actual control of the earth station license, the proposed assignment of EMC’s receive-only earth station license to RWB is *pro forma* in nature. The Applicants ask that the Commission grant this Application without issuing a public notice of receipt of the Application per Section 25.151(c)(5) of the FCC Rules.

The assignment of EMC’s receive-only earth station license to RWB will enable the Applicants to accomplish an internal reorganization that will help the Applicants achieve certain business objectives. As such, the transaction will be in the public interest. Therefore, the Applicants respectfully request that the Commission expeditiously approve the proposed assignment.
