

**ATTACHMENT 1
 DESCRIPTION OF *PRO FORMA* TRANSACTION**

The instant application involves the *pro forma* assignment of the FCC International Bureau licenses of the below listed earth stations from Quincy Newspapers, Inc. (“QNI”) or a wholly owned first-tier subsidiary of QNI to a wholly owned second-tier subsidiary of QNI. This *pro forma* application is accompanied by and related to the corresponding *pro forma* Media Bureau applications filed by the Applicant for its full-power television stations in File Nos. 20151021AGF, 20151021AHL, 20151021AGV, and 20151021AHG.

The instant application is one of four inter-related applications for which consent to assignment of earth station licenses is sought. The complete list of the Assignor’s FCC International Bureau authorizations for which assignment is sought is below:

	Call Sign	Type of Earth Station Facility	Name of Current Licensee	Name of Proposed Assignee
1.	E090013	Transmit Only Fixed C-Band	WISE-TV License, LLC	WPTA License, LLC
2.	E030098	Transmit/Receive Temporary/Fixed Ku-Band	KWWL Television, Inc.	KWWL License, LLC
3.	E950239	Transmit/Receive Temporary/Fixed Ku-Band	KWWL Television, Inc.	KWWL License, LLC
4.	E970099	Transmit/Receive Fixed Ku-Band	WKOW Television, Inc.	WKOW License, LLC
5.	E050130	Transmit/Receive Temporary/Fixed Ku-Band	WVVA Television, Inc.	WVVA License, LLC
6.	E940161	Transmit/Receive Fixed Ku-Band	WVVA Television, Inc.	WVVA License, LLC

The Commission recently approved QNI’s acquisition of the earth stations listed in item 1 in the above table. *See* SES-ASG-20141201-00878 (the “Granite Acquisition Application”). This acquisition has not yet been consummated. As reflected in the “Before Reorganization” diagram below, QNI sought and obtained Commission consent to assignment of these licenses directly to QNI. At or after closing, QNI intends to undertake a *pro forma* corporate reorganization, for which QNI hereby seeks Commission consent. As shown in the “After Reorganization” diagram below, following the reorganization, newly formed second-tier subsidiaries will hold the International Bureau licenses, and 100% of the membership interest in these second-tier limited liability companies will be held by newly formed first-tier holding companies. One hundred percent of the stock of each first-tier holding company will be held by QNI.

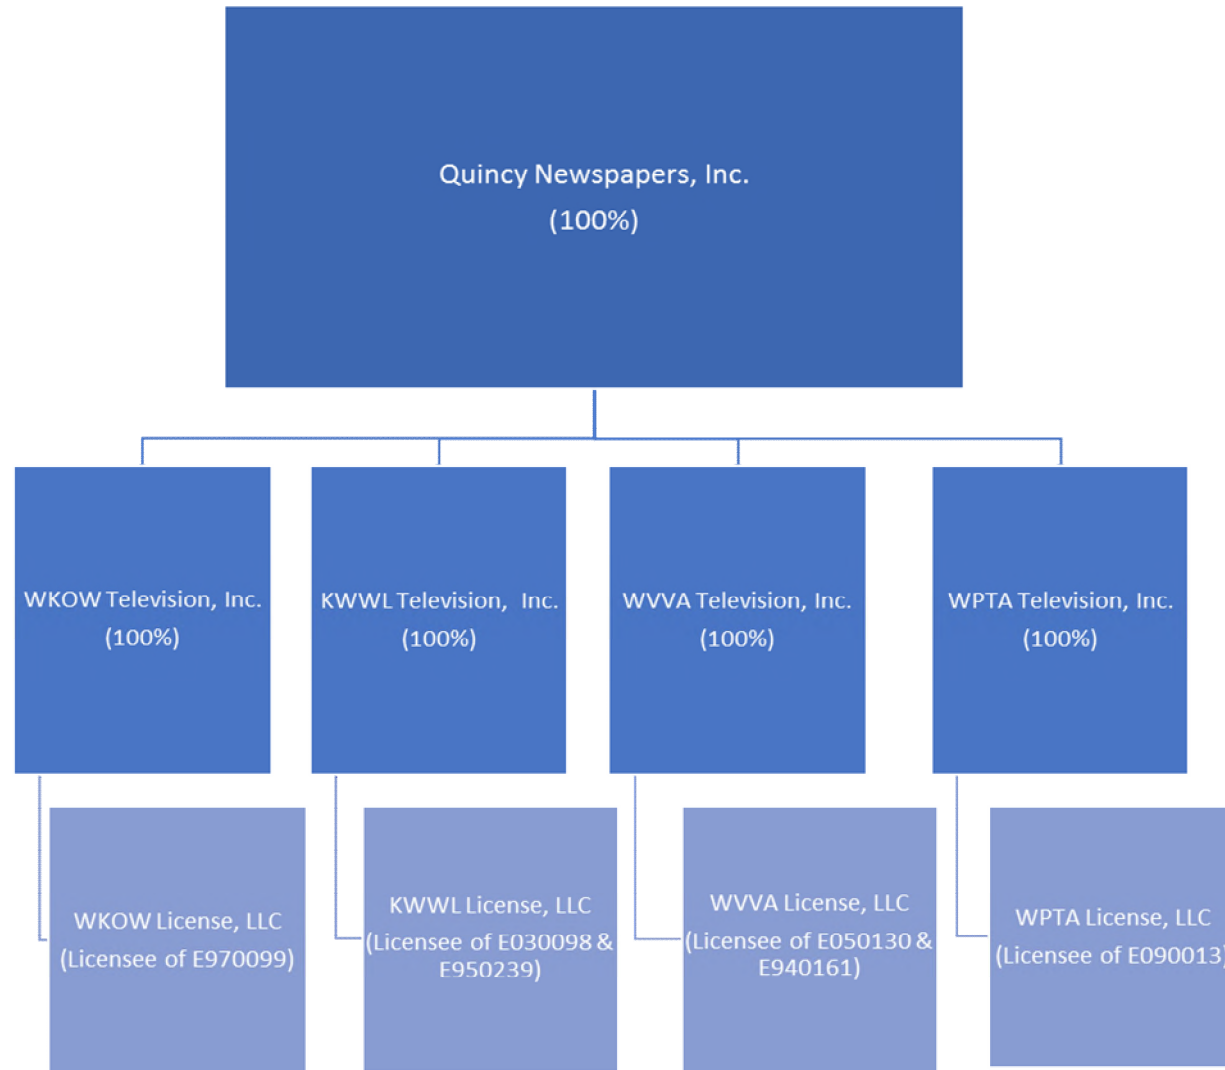

QNI also seeks consent to the assignment of its existing International Bureau licenses (those it holds prior to the closing of the transactions contemplated in the Granite Acquisition Application) from existing first-tier subsidiaries to newly formed second-tier subsidiaries. These earth stations are listed in items 2-6 in the above table. One hundred percent of the stock of the first-tier holding companies is currently held, and will continue after reorganization to be held, by QNI. After the reorganization, as shown in the “After Reorganization” diagram below, the International Bureau licenses will be held by second-tier subsidiaries, and 100% of the membership interest in each newly formed second-tier subsidiary will be held by a corresponding first-tier holding company. One hundred percent of the stock of each first-tier holding company is held by QNI.

Following is a summary depiction of the proposed *pro forma* transaction:

Before Reorganization

After Reorganization

This is a *pro forma* transaction because the transaction is a “corporate reorganization which involves no substantial change in the beneficial ownership” of the FCC licenses. *See* 47 C.F.R. § 73.3540(f)(4).

Since this application is in connection with an internal corporate restructuring, there is no formal written agreement for this *pro forma* transaction.

For reference, the qualifications of the attributable parties of QNI and its subsidiaries¹ was last approved on “long-form” by the Commission on September 15, 2015, in FCC File Numbers BALCDT-20140221ABR, BALCDT-20140221ABQ, BALCDT-20140221ABN, BALCDT-20140221ABO, and BALCDT-20140221ABL.

* * * * *

¹ The attributable parties of each of QNI’s first-tier and second-tier subsidiary licensee companies is made up entirely of attributable parties of QNI.

EXHIBIT F
PUBLIC INTEREST

Grant of the instant application would be in the public interest because it would permit the applicant licensee and the assignor/assignee to continue to operate the respective earth station(s) listed in Attachment 1 which are used for newsgathering and other activities in conjunction with the licensee's and assignor/assignee's ownership and operation of various full-power television stations.
