

**Exhibit F**  
**Supplemental Information**

This application seeks to assign, *pro forma*, the Temporary Fixed Earth Satellite, having call sign E020132 (the “License”), from VideoLink, Inc. (the “Assignor”) to Old VFOTS LLC (the “Assignee”). As shown in the chart below, this assignment is *pro forma* in nature because the Assignor is merely converting from a corporation to an LLC with a new name, and the ownership will remain exactly the same.

The assignment will serve the public interest because it will allow the Assignee to continue to use the License under the same ownership.
