Primary Business: Manufacturer of Remotely Piloted Aircraft (RPA) systems:

General Atomics Aeronautical Systems, Inc. (GA-ASI), an affiliate of privately-held General Atomics, is a leading manufacturer of Remotely Piloted Aircraft (RPA) systems, radars, and electro-optic and related mission systems solutions. The company's Aircraft Systems business unit is a leading designer and manufacturer of proven, reliable RPA including Predator[®] A, Predator B/MQ-9 Reaper[®], Gray Eagle, the new Predator C Avenger[®], and Predator XP. It also manufactures a variety of state-of-the-art digital Ground Control Stations (GCS) and provides pilot training and support services for RPA field operations. The Mission Systems business unit designs, manufactures, and integrates the Lynx[®] Multi-mode Radar and the highly sophisticated Claw[®] sensor payload control and image analysis software on to both manned and remotely piloted aircraft. It also integrates other sensor and communication equipment into manned Intelligence, Surveillance, and Reconnaissance (ISR) aircraft and develops emerging technologies in electro-optical sensors, and meta-material antennas.

GA-ASI is headquartered in Poway, California and spans multiple facilities in the San Diego area and in the Mojave Desert, as well as adjacent to various customer locations around the U.S.
