## **EXHIBIT 2**

## OTHER LICENSES AND APPLICATIONS (Response to Question 36)

On July 26, 2011, the FCC declared null and void an authorization of EchoStar Corporation, the parent company of EchoStar Operating L.L.C. ("EOL") (together with their affiliates, "EchoStar"), to construct, launch, and operate a new Direct Broadcast Satellite at 86.5° W.L. for failure to meet the critical design review milestone, and rejected EchoStar's request to modify its 86.5° W.L. authorization to allow the in-orbit EchoStar 8 satellite to provide service from that orbital location. The FCC also has denied a few of EchoStar's applications for initial license or modification. In addition, the FCC has dismissed, but not denied on the merits, a few of EchoStar's license applications without prejudice to refiling.
