

EXHIBIT F

Public Interest Statement

This request for pro forma assignment is a result of an internal transfer of FCC receive-only registrations from one Lumen entity to another. The receive-only earth station registrations licensed to CenturyTel Broadband Services, LLC (CTBS) were assigned to Vyvx, LLC (Vyvx) on September 1, 2022, as part of a larger transaction by which Connect Holding, LLC will acquire control of certain Lumen subsidiaries, including CTBS.¹ Vyvx will continue to provide services authorized under the receive-only earth station registrations previously licensed to CTBS. Customers will receive the same service they do today under the same terms and conditions.

¹ See *Applications Filed for the Transfer of Control of Certain Subsidiaries of Lumen Technologies, Inc. to Apollo*, Public Notice, WC Docket No. 21-350, DA No. 21-1586 (rel. Dec. 16, 2021).
