

Nature of Request and Public Interest Statement

By the instant application (“Application”), Commission consent is sought to the assignment of the license for Domestic Fixed Satellite Service Stations E960031 (the “License”) from Unisys Corporation (“Unisys”) to Science Applications International Corporation (“SAIC”). Unisys and SAIC will be referred to herein as the “Parties”.

The Parties seek prior Commission consent to the assignment of the License to SAIC in light of the sale of Unisys’ federal business unit to SAIC. The facilities authorized under the License are operated in support of a U.S. government contract, and grant of the assignment will allow the services to continue under new ownership. As demonstrated in the Application, SAIC has the qualifications necessary to become the Commission licensee for the subject station. For all of the foregoing reasons, the Parties respectfully submit that the proposed transaction will serve the public interest.

* * * * *

With regard to Question No. 37 of the Main Form 312, throughout the term of this license, Unisys, has been and remains today, a responsible government contractor without any such circumstances and the purpose of this application is to ask the Commission’s consent to transfer the license to another responsible government contractor, Science Applications International Corporation, the purchaser of the business to which the license relates.
