

Verizon Communications Inc. (“Verizon”) seeks FCC consent for the *pro forma* assignment of the non-common carrier VSAT and fixed earth station authorizations held by MCI Communications Services, Inc. as part of an internal restructuring involving certain direct and indirect subsidiaries of Verizon that is scheduled to occur on or about June 30, 2020.

**Exhibit E: Response to FCC Form 312, Question A20**

Verizon is a publicly traded and widely held company, and no person or entity holds a direct or indirect 10 percent or greater ownership interest in Verizon. Verizon’s address is One Verizon Way, Basking Ridge, New Jersey 07920. Verizon’s principal business is the provision of communications services.

**Exhibit F: Response to FCC Form 312, Question A21**

Verizon seeks FCC consent to undertake certain *pro forma* transactions in connection with an internal restructuring involving certain direct and indirect subsidiaries of Verizon that is scheduled to occur on or about June 30, 2020.<sup>1</sup> The restructuring includes the elimination of multiple companies in the Verizon ownership chain, as well as the conversion of certain companies from corporations to limited liability companies. These non-substantive internal ownership changes will result in the *pro forma* assignment or transfer of control of various FCC licenses and authorizations within Verizon. Verizon, both before and after the restructuring, will indirectly control such licenses and authorizations. Specifically, the following *pro forma* transactions are scheduled to take place on or about June 30, 2020:

1. The following intermediate holding companies will be merged into their respective immediate parent companies, which ultimately will merge into MCI International, Inc. (which, as noted below, will be converted into a limited liability company):

MCI Broadband Solutions, Inc.  
Terremark Worldwide, Inc.  
MCI International Telecommunications Corporation  
MCI International Services, Inc.

2. MCI Communications Corporation will be merged into its immediate parent company, Verizon Business Global LLC.
3. Verizon Americas Finance 1 Inc. and GTE Wireless of the Midwest Incorporated will be merged into Verizon Americas Inc. (which, as noted below, will be converted into a limited liability company).

---

<sup>1</sup> Notifications for authorizations impacted by the restructuring that are eligible for forbearance from the prior consent requirement for *pro forma* assignments and transfers of control, or are otherwise subject to post-closing notification requirements, will be filed after the proposed restructuring occurs. 47 C.F.R. §§ 1.767, 1.948(c)(1), 25.119(h), 63.24(f)(1).

4. The following subsidiaries will be converted from corporations to limited liability companies:

Verizon Business Network Services Inc.  
MCI International, Inc.  
MCI Communications Services, Inc.  
Verizon Americas Inc.

5. Bell Atlantic Mobile Systems LLC will change its name to BAMS Communications LLC (“BAMS Communications”). BAMS Communications will form a new wholly-owned subsidiary named Bell Atlantic Mobile Systems LLC (“New BAMS”), then contribute its assets to New BAMS. Those assets will include: (1) its FCC licenses, authorizations, and spectrum leases; and (2) any partnership interests held in other Verizon licensees, including its approximate 26.6 percent general partnership interest in Cellco Partnership.

Attached hereto are charts showing the ownership of the affected FCC licensees before and after the *pro forma* transactions described above. A list of the affected licensee subsidiaries also is set forth below.<sup>2</sup>

Because the internal restructuring will not change the ultimate control of any license or licensee – Verizon will continue to control all of these licensees post-closing – the transactions described above are *pro forma* in nature.<sup>3</sup> The Commission has stated that, in situations “where no substantial change of control will result from the transfer or assignment, grant of the application is deemed presumptively in the public interest.”<sup>4</sup>

---

<sup>2</sup> The licensees and call signs referenced in these filings are intended to be complete and include all licensees and licenses affected by the internal reorganization. Verizon, however, requests that FCC approval of the *pro forma* transfer or assignment applications include any licensees and/or call signs that may have been inadvertently omitted or are in pending status.

<sup>3</sup> *Communications Bar Ass’ns Petition for Forbearance from Section 310(d) of the Communications Act Regarding Non-Substantial Assignments of Wireless Licenses & Transfers of Control Involving Telecomms. Carriers*, Memorandum Opinion and Order, 13 FCC Rcd. 6293, 6299, ¶ 8 (1998) (concluding that a “corporate reorganization which involves no substantial change in the beneficial ownership of the corporation” is *pro forma* in nature).

<sup>4</sup> *Id.* at 6295, ¶ 2. See also *1998 Biennial Review – Review of International Common Carrier Regulations*, Report and Order, 14 FCC Rcd 4909, ¶ 42 (1999) (finding that “[r]egulatory review of [*pro forma*] transactions yields no significant public interest benefits, but may delay or hinder transactions that could provide substantial financial, operational, or administrative benefits for carriers.”).
