Construction of the antenna facility identified above, as authorized by the Commission, has been completed and is operational. The antenna has been tested and is within 2 dB of the pattern specified in Section 25.209 of the Commission's rules. 47 C.F.R. § 25.209. Commencement of service began on April 1, 2008, and the antenna will remain operational throughout the license period unless the license is submitted for cancellation.

I hereby certify that I am the technically qualified person responsible for preparation of the attached information; that I am familiar with the Commission's rules and policies, including 47 C.F.R. Part 25 concerning satellite earth stations; and that this information is accurate to the best of my knowledge.
