Re: Notice of Ex Parte Presentation  
Proceedings Listed on Attached Page

Dear Ms. Dortch:

On February 7, 2006, Andy Sukawaty, Chairman and CEO of Inmarsat, Diane Cornell, Vice President of Government Affairs, Inmarsat, and Justin Lilley, consultant to Inmarsat, met with Don Abelson, Rod Porter, Gardner Foster, Patricia Cooper, Bob Nelson, Cassandra Thomas, Karl Kensinger, Fern Jarmulnek, Andrea Kelly, Howard Griboff, John Martin, Steve Duall, Richard Nunno, and Paul Locke of the International Bureau.

Inmarsat presented an overview of the company, its current satellite constellation, and its recent Inmarsat-4 satellite, which will be ready to provide service over North America in the next few months. In the context of this discussion, Mr. Sukawaty explained the benefits that Inmarsat's new Broadband Global Area Network (BGAN) service would have for users in the United States, and urged that the pending applications for authority to provide BGAN service be approved expeditiously. He noted that the issues that had been raised by MSV relating to disputed spectrum in the L Band were not germane to the pending license applications, and should be addressed separately.

Sincerely yours,

*Diane Cornell (JAM)*

Diane Cornell
