Re: *MVS Fed, LLC*
Application for Blanket Authority to Operate Up to 40,000 Mobile Earth
Terminals in Conjunction with Inmarsat's BGAN Service Satellites
Call Sign E050348
SES-LFS-20051123-01634, SES-AMD-20071221-01750

Dear Ms. Dortch:

MVS Fed, LLC ("MVS Fed"), by its attorneys, hereby provides clarifying information regarding information set forth in the above-referenced applications. Attachment 3, page 4, § III.D of the amended version of the above-referenced application discusses issues concerning national security, law enforcement and public safety concerns. This part of the application simply restated information that was provided in the original November, 2005 application submitted by affiliate and predecessor applicant, MVS USA, Inc. ("MVS USA" – SES-LFS-20051123-01634). (MVS Fed and MVS USA are commonly controlled by Debcom, Inc., and the amended application reflects a *pro forma* reorganization of their respective operations.) The information in MVS USA's application was proffered pursuant to its understanding at the time that then-existing arrangements between U.S. government agencies and underlying network providers for BGAN service were sufficient to cover MVS USA's operations for such purposes. This letter is intended to clarify and reaffirm the current understanding of MVS USA, MVS Fed and their common owner, Debcom, Inc. that a separate NSA and IP will be entered into for the applicant, which is now MVS Fed.

Subsequent to the filing of its original application, MVS USA entered into discussions with relevant U.S. government personnel regarding a network security agreement ("NSA") and accompanying implementation plan ("IP") specific to MVS USA. MVS Fed, as the successor applicant to MVS USA, remains in discussions with U.S. government personnel to enter into an

NSA and IP specific to MVS Fed. MVS Fed will notify the Commission once such arrangements have been finalized and executed.

Please contact the undersigned at (202) 383-3393 if there are questions concerning this filing.

Respectfully submitted,
