Re: 04RE003984  
Call Sign: E960391

Dear Ms. Lott:

Thank you for taking the time to help me with this licensing issue.

Since the license is still showing as active, please cancel it as soon as possible. The license has not been utilized since August of 2001.

Enclosed is a copy of the letter that was sent to the FCC on May 20, 2003 requesting cancellation of the license.

Also enclosed, is the license that we received from the FCC.

After reviewing our file, please contact me with the outcome as the FCC shows an outstanding charge for this license.

Regards,

  
Peter L. Gray  
Controller

Re: 02-INB0260  
Call Sign: E960391

Dear Office of the Secretary:

Please dismiss the above referenced call sign, E960391.

This morning, my office spoke with Ms. Janette Spriggs, of the International Bureau, and she was quite helpful in explaining the procedure to cancel a license. Please thank here for her assistance.

Monticello Spring Corp. discontinued the use of satellite communication in August of 2001 and returned the equipment to Redsat Communications (the lessor) Sept 24, 2001. A copy of the packing slip is enclosed. With the termination of the contract, Redsat was to handle the dismissal of the FCC license. Evidently, Redsat did not contact the FCC and has subsequently gone out of business. My office contacted the FCC on October 24, 2002 at 4:00PM and left a message on the voice mail system confirming the decommissioning of the license. No response has yet been received. After receiving a letter from the Department of the Treasury, DMSC Account Number 230044610-555757, I contacted them on April 8<sup>th</sup>. They requested information from the FCC on the origin of the debt. When I contacted the Treasury on April 16<sup>th</sup> and May 8<sup>th</sup> they had not received the information from the FCC. It was not until this morning that the FCC called, returning a voice-mail left on May 12<sup>th</sup>, and transferred my office to Ms. Spriggs.

Because of the breakdown of communication and the situation of Redsat, please reverse the penalties assessed to our account. Since the license was no longer being used and the equipment was no longer in our possession, please cancel the licensing fee, as well.

Thank you for your cooperation and understanding. Please contact me if there are any questions.

Regards,

  
Peter L. Gray  
Controller

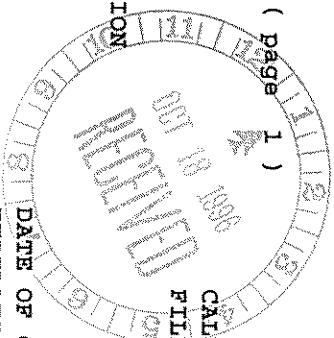

*There was no reversal of fees paid in full. Reversal of fees were paid in full. all charges*

**RADIO STATION AUTHORIZATION**

( page 1 )

CALL SIGN: E960391  
 FILE NO.: 1428-DSE-P/L-96

NAME: MONTICELLO SPRING CORPORATION  
 CONSTRUCTION PERMIT AND LICENSE

DATE OF GRANT: SEPTEMBER 6, 1996  
 EXPIRATION DATE: SEPTEMBER 6, 2006

NATURE OF SERVICE: DOMESTIC FIXED SATELLITE SERVICE  
 NATURE OF SERVICE: INTERNATIONAL FIXED SATELLITE SERVICE  
 CLASS OF STATION: FIXED EARTH STATION

LOCATION OF STATION: LATITUDE LONGITUDE  
 STATION ADDRESS: 3137 SOUTH FREEMAN ROAD 40 42 21.0 N 86 46 12.0 W  
 MONTICELLO (WHITE County), INDIANA

SUBJECT TO THE PROVISIONS OF THE COMMUNICATIONS ACT OF 1934, THE COMMUNICATIONS SATELLITE ACT OF 1962, SUBSEQUENT ACTS AND TREATIES, AND ALL PRESENT AND FUTURE REGULATIONS MADE BY THIS COMMISSION, AND FURTHER SUBJECT TO THE CONDITIONS AND REQUIREMENTS SET FORTH IN THIS PERMIT AND LICENSE, THE GRANTEE IS AUTHORIZED TO CONSTRUCT, USE AND OPERATE THE RADIO FACILITIES DESCRIBED BELOW FOR RADIO COMMUNICATIONS FOR THE TERM BEGINNING SEPTEMBER 6, 1996 (3 A.M. EASTERN STANDARD TIME) AND ENDING SEPTEMBER 6, 2006 (3 A.M. EASTERN STANDARD TIME). THE REQUIRED DATE OF COMPLETION OF CONSTRUCTION IS SEPTEMBER 6, 1997. GRANTEE MUST FILE WITH THE COMMISSION A CERTIFICATION UPON COMPLETION OF CONSTRUCTION.

1. PARTICULARS OF OPERATIONS

FREQUENCIES (MHz) AND POLARIZATION	EMISSION (dBW)	4kHz)	ANTENNA(S)	FORM 488-A)	EIRP		SPECIAL PROVISIONS
					(dBW/	ASSOCIATED (REFER TO FCC	
1.14000.000-14500.000 H,V 76K8G7D	48.00	35.20					1900
2.11700.000-12200.000 H,V 76K8G7D							1010

2. FREQUENCY COORDINATION LIMITS

Frequency Limits (MHz)	Satellite Arc (Deg. Long.)		Elevation (Degrees)		Azimuth (Degrees)		Max. EIRP Density to Associated Antenna(s)
	East Limit	West Limit	East Lim.	West Lim.	East	West

(6): 5017	(7): 5018	(8): 5202	(9): 5203	(10): 5216
(11): 5222	(12): 5226	(13): 5712		

SPECIAL AND GENERAL PROVISIONS  
FOR RADIO STATION AUTHORIZATION

The radio station authorization granted on FCC Form 488 for file No. 1428-DSE-P/L -96, CALL SIGN: E960391 is subject to additional terms and conditions specified by code numbers on that form. The text of these special and general provisions is given below:

- 1010 - Receive frequency band. Emission designator indicates the maximum bandwidth of transmission received at this station. Maximum E.I.R.P. and maximum E.I.R.P. density are not applicable to receive operations.
- 1900 - Authority is granted to transmit any number of r.f. carriers with the specified parameters on any discrete frequencies within this band in accordance with the other terms and conditions of this authorization, subject to any additional limitations that may be required to avoid unacceptable levels of inter-satellite interference.
- 2010 - This authorization is issued pursuant to the Commission's Second Report and Order adopted June 16, 1972 (35 FCC 2d 844) and Memorandum, Opinion and Order adopted December 21, 1972 (38 FCC 2d 665) in Docket No. 16495 and is subject to the policies adopted in that proceeding.
- 2810 - The grantee shall maintain on file with the Commission a current list or plan of the precise frequencies in actual use at this station, specifying for each such frequency: the r.f. center frequency, polarization, emission designator, EIRP (dBW), EIRP density (dBW/4 KHz), and receiving earth station(s). This list or plan may be submitted either on a station-by-station basis or on a system-wide basis, and shall be updated within seven days of any changes in frequency usage at this station. Temporary usage of frequencies for periods of less than seven days need not be notified to the Commission if accurate station records are maintained of the times and particulars of such temporary frequency usage.
- 2916 - The transmitter(s) must be turned off during antenna maintenance so that the FCC-specified safety guidelines for human exposure to radiofrequency radiation are complied with in the region between the feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the earth station's power flux density levels exceed the specified guidelines.
- 2938 - Upon completion of construction, each licensee must file with the Commission a certification including the following information: name of the licensee, file number of the application, call sign of the antenna, date of the license and certification that the facility as authorized has been completed, that each antenna facility has been tested and is

within 2 dB of the pattern specified in Section 25.209 and that the station is operational including the date of commencement of service and will remain operational during the license period unless the license is submitted for cancellation.

5012 - The authority granted here is limited to the operation of the facilities described above and does not include any authority to install and operate channelizing equipment or any other authority under Section 214 of the Communications Act of 1934, as amended, to establish channels of communication.

5017 - Operation of this station is governed by the terms, conditions and limitations in part 25 of the Commission's Rules and Regulations and the following additional conditions:  
1. This license shall not vest in the licensee(s) any right to operate the station or any right in the use of the frequencies designated in the license beyond its term or in any other manner than authorized in the license; 2. Neither the license nor the right granted under it shall be assigned or otherwise transferred in violation of the Communications Act of 1934, as amended, or the Commission's Rules and Regulations issued under it; and 3. This station is subject to the right of use or control conferred by Section 706 of the Communications Act of 1934, as amended.

5018 - This license shall be forfeited automatically if this station is not ready for operation within the time specified unless, prior to the expiration date of this license, the Commission receives an Application for Additional Time to Construct a Radio Station (FCC Form 701) filed by the Licensee(s) showing good cause why the Licensee(s) could not complete construction on time.

5202 - Use of this facility to provide service on a common carrier basis will require appropriate authorization under Section 214 of the Communication Act of 1934, as amended.

5203 - All communications shall be in accordance with the satellites and services which have completed consultations under Article XIV(d) of the INTELSAT Agreement and which the Commission has approved.

5216 - All operations shall be on a non-common carrier basis.

5222 - The provision of purely domestic service via non-ALSAT satellites is prohibited.

5226 - All services are not interconnected to the public switched network.

FILE NUMBER: 1428-DSE-P/L-96

CALL SIGN: E960391

5712 - License is authorized to provide services between the United States and Foreign countries listed in this underlying application via the authorized non-U.S. satellites. This authorization is subject to final Commission action in "Amendment of the Commission's Regulatory Policies to allow Non-U.S.-Licensed Space Stations to provide Domestic and International Satellite Service in the United States", IB Docket No. 96-111, FCC 96-210 (Released May 14, 1996).

COMMUNICATIONS SATELLITE EARTH STATION STANDARD PROVISIONS

THIS AUTHORIZATION IS SUBJECT TO THE FOLLOWING CONDITIONS:

This authorization is issued on the grantee's representation that the statements contained in the application are true and that the undertakings described will be carried out in good faith.

This authorization shall not be construed in any manner as a finding by the Commission on the question of marking or lighting of the antenna system should future conditions require. The grantee expressly agrees to install such marking or lighting as the Commission may require under the provisions of Section 303(q) of the Communications Act. 47 U.S.C. § 303 (q).

Neither this authorization nor the right granted by this authorization shall be assigned or otherwise transferred to any person, firm, company or corporation without the written consent of the Commission. This authorization is subject to the right of use or control by the government of the United States conferred by Section 706 of the Communications Act. 47 U.S.C. § 706. Operation of this station is governed by Part 25 of the Commission's Rules. 47 C.F.R. Part 25.

This authorization shall not vest in the licensee any right to operate this station nor any right in the use of the designated frequencies beyond the term of this license, nor in any other manner than authorized herein.

This authorization is issued on the grantee's representation that the station is in compliance with environmental requirements set forth in Section 1.1307 of the Commission's Rules. 47 C.F.R. § 1.1307.

This authorization is issued on the grantee's representation that the station is in compliance with the Federal Aviation Administration (FAA) requirements as set forth in Section 17.4 of the Commission's Rules. 47 C.F.R. § 17.4.

The following condition applies when this authorization permits construction of or modifies the construction permit of a radio station:

This authorization shall be automatically forfeited if the station is not ready for operation by the required date of completion of construction unless an application for modification of construction permit for additional time to complete construction is filed by that date, together with a showing that failure to complete construction by the required date was due to factors not under control of the grantee.
