Subject: IB1999000390 Change

Jacki, on one of the applications I submitted recently, IB1999000390, I made an entry in the section called Frequency which is incorrect, but I didn't realize so until after I had submitted it. The entry which lists the Frequency Lower at 13750.0 and Frequency Upper at 14000.0 should actually be 13772.0 and 13778.0. The other information is correct. In addition, there should be two additional entries as follows:

Frequency Lower EIRP	Frequency Upper Max. EIRP Den.	T/R	Polarization	Emmis Desig.	Max.
13750.0 30M0F3F	85.0	58.0	T Analog TV	H,V	
13779.0 30M0F3F	85.0	58.0	T Analog TV	H,V	

I had mentioned another application containing a section in which I was not able to delete some entries, however I was able to resolve this on my own. Thanks for your help.
