Dear Mr. Kotler:

In response to your letter dated July 26, 2005 requesting additional information to demonstrate compliance with requirements that have taken effect this year. We are working with the vendors involved, as well as the FCC to fully understand the requirements and ensure that we have the necessary documentation to indicate compliance. However, we have not been able to fully complete this process.

Therefore we are requesting an extension to BJ Services application process of thirty (30) days to provide for completing the compliance process. It was not clear from your correspondence if this letter can serve as a request for extension or whether there was another process involved. Please advise.

Regards,

Dennis L. Selby
Asst. MIS Director
