Subject: FCC Correction

Mr. Clements,  
After reviewing the Form 312, I discovered that I had made an incorrect entry on Schedule B - Page 2. The "Total EIRP for all carriers (dBW)" (B5.(h)) should be 66.4 dBW. I had entered the Maximum EIRP Density of 39.4 dBW/4kHz.

I apologize for the oversight. Please let me know if you need any additional information.

Best regards,

Michael S. Batson
