Subject: File No. SES-LIC-20040309-00346

Towanda:

With respect to the above-file number, today we are filing an amendment to include an additional antenna as well as frequency coordination reports for the whole filing (which is now two antennas).

You send me a fax earlier in the day with respect to the original antenna on the original filing - the calculated angles were different that what was reported. We are fine with using the calculated angles. Also, if it needs to be done (I made the change in the amendment), the answer to E15 and E18 are both "Yes." The frequency coordination report was attached to the amendment but it applies to both antennas.

I think after today's filing, you should be all set. Please contact me as soon as possible if there is anything else that you need,

Thanks Towanda,

Michelle S. Cadin
