Subject: C-Sat Application, File #SES-LIC-20040329-00471

Mr. Peace,

As per our telephone conversation this date, I want to assure you that both Sola Communications and our customer, EPEC Communications Corporation, are aware that the C-Band Remote Stations recently filed for and granted under STA File # SES-STA-20040331-00495 cannot transmit while the platform is being moved. The application includes nine (9) locations, three (3) of which are offshore oil platforms. These platforms are stationary and transmission will only take place from the locations (specific latitude and longitude) that were coordinated by Comsearch, Inc. The other six (6) are land locations along the Texas coast of the Gulf of Mexico and, as such, are also fixed and will also only transmit from the locations (specific latitude and longitude) that were coordinated by Comsearch, Inc.

If I can be of further assistance, please do not hesitate to get in touch.

Pat Meche

Engineering Manager

Sola Communications, L.L.C.
