Subject: RE: WildBlue blanket license filing - courtesy copy

Jeanette,

Per your request, below is a summary of the nature of the WildBlue application in response to question 43 of Form 312:

The applicant seeks blanket authorization to operate 250,000 fixed and 1,000 temporary fixed customer premises earth terminals in the Ka-band. These CP terminals will be used with WildBlue's Ka-band satellite network to provide two-way, broadband Internet access directly to residential and SOHO customers, and will operate in compliance with all Commission requirements.

Please let me know if you need anything further.

Best regards,

Fred B. Campbell, Jr.
