Subject: RESPONSE TO LETTER OF 9/3/04

Bill and Scott:

Attached on a pdf file per our telephone conversation yesterday is response to Mr. Howden's letter of September 3, 2004 regarding the following three pending earth station applications:

- 1) SES-LIC-20040528-00747
- 2) SES-LIC-20040528-00748
- 3) SES-LIC-20040528-00749

These responses were developed during the course of three extensive telephone conference calls between the engineering staff of Telco 214 and MultiComm Sciences, International, the frequency coordinator retained by the Applicant.

If, after reviewing the attached information and responses, there remain any further questions relating to any of the three applications, I will be glad to arrange for a conference bridge with the Telco 214 engineering director.

Thank you very much for your consideration.

Regards,

Bob Allen
