**Re: Certification of Completion of Earth Station Construction and
Commencement of Operation
File No. SES-LIC-20040907-01337
Call Sign E040363.**

Dear Ms. Dortch:

Pursuant to Section 25.133 of the Federal Communications Commission's ("Commission's") Rules, Sirius Satellite Radio Inc. ("Sirius") certifies that it has completed construction and begun operations of its Ku-band transmit/receive earth station with call sign E040363. The Commission granted Sirius a license to operate this earth station on October 19, 2004. The facility has been completed as authorized, including the gain patterns specified in Section 25.209, and each antenna facility has been tested. Sirius will continue operation of this earth station during its license period, and if it does not continue operation it will submit the license for cancellation.

Respectfully Submitted,

Patrick Donnelly
Executive Vice President, General Counsel and Secretary
