Dear Eleanor -

We appreciate your telephone call today in response to ConocoPhillips Communications' application for a new VSAT system. Provided below is supplemental information to the application (File Number: SES-LIC-2004-1007-01503.)

The 400 remote antennas will operate "CONUS". Also, we have attached the Radiation Hazard for the remote antennas, which was erroneously omitted from the application.

Please do not hesitate to contact Katherine Lucas or myself if we can be of any further assistance. - Elizabeth
