Re: SES-LIC-20050119-00079; Call Sign: E050017

Dear Ms. Dortch:

This letter is to correct the orbital location for two satellites that EchoStar Satellite L.L.C. requested as points of communication in the above captioned application. Specifically, the orbital locations for the EchoStar 5 and EchoStar 6 satellites were inadvertently reversed in the application. The application should request authority to communicate with EchoStar 5 at the 119° W.L. orbital location and EchoStar 6 at the 110° W.L. orbital location (not vice versa as inadvertently stated). The correct location of the two satellites is information of record with the Commission. We would greatly appreciate your revising the points of communication in the above captioned application to reflect the correct orbital locations for the EchoStar 5 and EchoStar 6 satellites.

Please feel free to contact me, if you have further questions regarding this application.

Respectfully submitted,

Pantelis Michalopoulos
