**Re: Interactivation Health Networks LLC –
Surrender of Satellite Earth Station Authorization; Call Sign E050184**

Dear Ms. Dortch:

Interactivation Health Networks LLC (“IHN”), the former licensee of the above-referenced fixed satellite earth station at Waukesha, Wisconsin (Call Sign E050184), by its attorneys, hereby informs the Commission that this facility has permanently ceased operations. This license expired by its own terms on August 3, 2020 (*see* IBFS File No. SES-LIC-20050624-00812). For the avoidance of doubt, however, IHN is filing this notice to confirm that all equipment associated with this facility has been dismantled and removed from the site, and the license should be considered no longer active for any purpose as of that date.

Please do not hesitate to contact the undersigned if there are any questions concerning this matter.

Respectfully submitted,

s/ David S. Keir
