I modified the emission designator to 6M00G7W in the amendment that I was able to file and in the amendment to the amendment that I was unable to file.

>>> "Sophie Arrington" <Sophie.Arrington@fcc.gov> 08/10/05 04:11PM >>>  
Ms. Pauker,

I will make the change to the amendment and the license application. I need you to state in your e-mail the correct emission designator for both the license application and the amendment. I will upload the e-mail and attached it to the files.

Ms. Arrington,

I prepared the amendment to the amendment, but I was unable to file it because the system says it is the type of application that cannot be amended. I'm assuming that the amendment of the underlying application supercedes.

Thanks again for your help.

Molly
