Re: File No. SES-LIC-20050812-01100

Dear Ms. Dortch:

On Aug. 3, 2005, Grupo W COM, S.A. de C.V. ("Grupo W COM") filed the above-referenced FCC Form 312 application for authorization to operate a Ku-band VSAT network. By this letter, Grupo W COM clarifies that the point of communication for the VSAT network, including the two earth station hubs<sup>1</sup> and remote sites, will be Horizons 1 (127° W.L.).

Please direct any questions to the undersigned.

Sincerely,

Gerard J. Waldron  
Matthew S. DelNero  
*Counsel to Grupo W COM*

cc: Scott Kotler, Chief of Systems Analysis Branch, Satellite Division, Int'l Bureau

---

<sup>1</sup> As noted in the FCC Form 312 application, the Grupo W COM VSAT network will utilize earth station hubs E990214 and E990092, which are both licensed to PanAmSat. E990214 will serve as the primary hub site, while E990092 will be used as a "backup" hub site.
