**To:** Sophie Arrington  
**Subject:** KAKW Uplink Application

As per our telephone conversation a few minutes ago, please make the following corrections to my SNG Ku Truck application:

1. This application is for a Temporary Fixed Earth Station, not a Mobile Earth Station.
2. The band being received is 11.7 - 12.2 GHz.
3. The points of communication is ALSAT (all U.S. Domestically licensed satellites).

If I can answer any other inconsistencies, you know how to reach me.

Respectfully,  
Timothy Schultz
