Dear Mr. Nelson:

Re: Application of Telenor/SES-LIC-20060130-00175

NTIA has no objection to renewing the MES C terminal authorization as Telenor requests. However, we note that there are issues pending concerning the use of the Inmarsat 4F2 referred to in Item 43 of the application. It would be preferable if the Telenor authorization did not include the use of the 4F2 satellite at this time.

Sincerely,
