Re: This letter is to certify completion of construction, and commencement of operation of a Fixed
Satellite Earth Station.

Name of Licensee: *Christian Voice of Central Ohio, inc*
File Number: [SES-LIC- 20060412-00624]
Call Sign: [E-060117]

TRANSMIT:

On July 1, 2006 technical compliance and antenna performance verification of the earth station was performed. Testing and verification was performed using the facilities, resources, and monitoring equipment of SES Americom. Commencement of service began July 1, 2006.

- The RF operating frequency is 140000.0000-14500.0000 MHz.
- [Vertical] transmit polarization is currently being used
- The emission designator is 230KG7W.
- EIRP is 52.20 dBW
- EIRP density (35.20/4 kHz) is [as listed on license] dBW

RECEIVE:

- On July 1, 2006, this station commenced receive operation.
- The RF operating frequency is 11700.000-12200.0000 MHz
- [Vertical] receive polarization is currently being used
- Receive designator is 230KG7W.

These are the current operating parameters, but we may, at any time, need to operate on any of the 24 transponders, and their associated polarizations, within our licensed limits and satellite arc coverage, due to satellite loading and/or equipment failure requirements.

Sincerely,

Troy Bryant
Chief Engineer
