Subject: Raysat Antenna Systems - Data Logging Issue

William,

Thank you for taking the time to speak with me yesterday. As we discussed, Raysat does not believe there will be an issue with 5 minute data logging intervals versus the current 20-minute interval. In addition, Raysat believes that there are significant benefits to modifying or "upgrading" its existing LMSS licenses to VMES licenses. Of course, the company needs to coordinate with its new owners, Spacenet Integrated Government Solutions, Inc., to determine the most appropriate way forward but I anticipate that modification applications will be filed in due course.

Please don't hesitate to contact me should any other issues arise, and I will follow up as appropriate regarding the contemplated modification filings.

Best regards,

Carlos
