Dear Ms. Dortch:

Pursuant to Section 25.133(b) (1) of the Commission's Rules and Regulations, Sherjan Broadcasting Co., Inc. hereby advises the Commission that construction of the facilities authorized under the above-referenced construction permit and license has been completed. The antenna has been tested and is within 2 dB of the pattern specified in Section 25.209 of the Commission's Rules and Regulations.

As this facility is a Ku-band transmit-receive earth station operating exclusively in the Ku-band, it was placed in service on November 13, 2006, as permitted by Public Notice DA-06-1221. It will remain operational during the license period unless the license is submitted to the Commission for cancellation.

Very truly yours,

Omar Romay
