OK We changed the Elev East to 0<5 and the Elev West to 0<5. We changed the #3 36M0F9W to read EIRP (dBW) to 70.00 and the EIRP Den (dBW/4kHz) to 43.00 and that should make the other figure OK...Ron

Can you just put the changes in an email, I can't upload a auto grant sheet as an attachment to your application.

Tnx. T.
