Subject: Emission Designator Correction for Earth Station Application
Eleanor,

As we just discussed, there's a typo in the application in FCC File No. SES-LIC-20070221-00261, call sign E070032, for a new transmit/receive Ku-band satellite earth station license for Tucson, AZ (applicant: University of Arizona).

In Schedule B, Item # 47, the Emission Designator for Frequency Band 14,000-14,500 should be: 8M00G7W. (One of the 0's was missing.)

If you need any further information to process the application, please let us know.

Thanks,
Barry
