Re: **Certification of Completion of Construction**
Fixed Satellite Earth Station E070141, Milwaukee, WI
FCC File No. SES-LIC-20070710-00914
FRN: 0002687499

Dear Ms. Dortch:

On behalf of Milwaukee Area Technical College (“MATC”), licensee of satellite earth station E070141, Milwaukee, Wisconsin, we hereby re-submit the station’s November 6, 2007 certification of completion of construction.

As evidenced by the enclosed submission, MATC filed its certification of construction for E070141 on November 6, 2007. However, during a recent review of the FCC’s public files, it was determined that they did not reflect the notification of construction. Accordingly, MATC hereby re-submits the attached filing out of an abundance of caution, and respectfully requests that the Commission include this submission in the station’s records.

MATC is a noncommercial educational licensee and operates earth station E070141 on a noncommercial educational basis. Moreover, MATC qualifies as a governmental entity. This station is therefore exempt from FCC filing fee requirements pursuant to Section 1.1114 of the Commission’s Rules, and the facility is exempt from FCC regulatory fees, pursuant to Section 1.1162 of the Rules. Should any questions arise concerning this matter, kindly contact this office.

Very truly yours,

Barry S. Persh

CERTIFICATION OF COMPLETION

This notice is to certify to the commission the completion of construction of the above referenced fixed earth station. Further, the antenna facility is within 2 dB of the pattern specified in FCC Rules, Sec. 25.209. This earth station commenced service on November 4, 2007. This earth station facility will remain in service during the license period unless the license is submitted for cancellation.

I am, respectfully yours,
