**Subject:** Antenna Statement Revisions for Tri-State Generation and Transmission Application

Trang,

Here are the revisions you requested for the antenna statements for the 0.52m and 0.26m remote antennas. They include total aggregate transmit power.

I still have a question concerning the revision of Schedule B, Item E15 for the 0.52m remote antennas. Do I need to file an amendment to the application for this correction, and will Tri-state have to pay \$170.00 for the amendment?

Thank you,

Jeff Cowles
